MIDIVERSE MODULAR MVM020: SKEW LFO

SKEW LFO

4HP
Draws 15mA from the +12V rail and
15mA from the -12V rail

FREQ

This potentiometer controls the frequency of the oscillator

Frequency indicator LED

Frequency range switch has three settings: slow (left), medium (right), and fast (middle)

SKEW

This potentiometer controls the shape of the waveforms (set it to 12 o'clock for symmetrical waveforms)

S   M

F

Frequency ranges from
1 minute (0.016 Hz) to 120 Hz

SQU   TRI

Square waveform output

Triangle waveform output

SQU   TRI

Inverted square waveform output

Inverted triangle waveform output

MVM
